

## F/T (or 30+ hrs/wk) Associate Chiropractor Opportunity

Pinnacle Spine & Sports in Concord West, Sydney is growing, and we need a superstar chiropractor to join our team on a full time (or close to full time) capacity, with an immediate start.

We are a multidisciplinary clinic, comprising chiro, physio, massage and our own dedicated studio for Pilates, yoga and other small group exercise classes.

Our chiropractic team currently consists of one full-time chiro, alongside myself (clinic director and part-time chiro). Both manual diversified practitioners with some drop-piece, activator and soft tissue work. I will be scaling my treatment hours back very soon to concentrate on the growth of the business and implementing our future plans, which include expansion to a second location in the near future.

We are after an experienced, passionate, motivated and self-driven chiro who can take the chiropractic side of our business to the next level. Given that I will be pulling back from face-to-face chiropractic treatment, I need someone who I can trust to keep driving things along and educating our current and future patients about the types of conditions chiropractic can treat, and how you can help them improve their health & wellbeing.

As a multidisciplinary clinic, willingness to work collaboratively with practitioners of other professions is a must, as is a dedication to evidence-based care and obtaining measurable outcomes.

Our current full time chiro is taking 6 weeks leave in July, so it is the perfect chance to start and build up a patient base, being the only full time chiro at the clinic for that period.

We are open to a number of arrangements in terms of employment type, from a commission based contract through to permanent PAYG employment, depending on the candidate.

Immediate start possible, or ideally prior to late June to facilitate a transition prior to current full time chiro taking leave.

This is a great opportunity with a great team! We create an environment in which we value your work/life balance, and we insist that you need to work to live, and not the other way around.
